H361:		ted of damaging fertility					
Precautionary Statements:   P202: Do not handle until all safety precautions have been read and understood.   P280: Wear protective gloves/protective clothing/face protection.   P210: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.   P243: Take precautionary measures against static discharge.   P270: Do not eat, drink or smoke when using this product.   P233: Keep container tightly closed.   P234: Keep only in original container.   P260: Do not breathe vapours or mist.   P264: Wash horoughly after handling.							
Response Stat

P304+P340+P310		IF INHALED: Remove victin	n to fresh air and keep at rest in a position com a POISON CENTER/doctor.	fortable for			

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor.

Wash contaminated clothing before reuse.

P305+P351+P338+P310

P363:

Storage: Disposal: P405: Store locked up. P501: Dispose of container according to all applicable regulations.

COMPONENTS CAS NO. EC No. CONCENTRATION (wt/w					
Cyclohexylamine Morpholine		108-91-8 110-91-8		10.0 - 20.0 10.0 - 20.0	
SECTION 4 : FIRST AID MEASURES					
EYES:	Wash with copious amounts of water for at least 20 minutes keeping eyelids open. If irritation persists repeat flushing. Get immediate medical attention.				
SKIN:	Immediately wash the affected areas with plenty of water. If irritation persists, obtain medical attention.				
INHALATION:	Remove person to fresh air and keep comfortable for breathing. Seek medical attention immediately.				
INTALATION.	Do not attempt to give anything by mouth to an unconscious person. If person is alert and not convulsing rinse mouth out and give 1-2 glasses of water to dilute material and seek medical attention immediately. DO NOT INDUCE VOMITING.				

Nausea, vomiting, burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. May cause respiratory irritation. Coughing.

### **General Information**

If exposed or concerned, get medical advice/attention. Ensure that medical personnel are aware of the materials involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance.

## SECTION 5 : FIRE FIGHTING MEASURES

Flammability: Combustible liquid.

Use extinguishing media suitable for surrounding materials.

Specific Hazards Arising from the Chemical:

The product is combustible, and heating may generate vapors which may form explosive vapor/air mixtures. During fire, gases hazardous to health may be formed.

### Special Protective Equipment and Precautions for Fire-fighters:

Self contained breathing apparatus and protective clothing should be worn in fighting all fires involving chemicals.

## SECTION 6 : ACCIDENTAL RELEASE MEASURES

#### Personal Precautions, Protective Equipment and Emergency Procedures:

Use personal protective equipment. Ensure adequate ventilation. Evacuate personnel to safe areas. Eliminate all ignition sources. Avoid contact with skin, eyes and inhalation of vapors.

#### **Environmental Precautions:**

Suitable Extinguishing Media:

Prevent further leakage or spillage if safe to do so. Prevent entry into waterways, sewers, or confined areas. Do not flush into surface water or sanitary sewer system.

### Methods and Materials for Containment and Cleaning Up:

Soak up with an inert and non-combustible absorbent material (e.g. sand, vermiculite, earth). Keep in suitable, closed containers for disposal. Dispose of according to local, provincial and federal regulations.

## SECTION 7 : HANDLING AND STORAGE

### Precautions for Safe Handling:

Use normal good industrial hygiene and safety practices. Use recommended safety equipment when handling. Keep away from open flames, hot surfaces and sources of ignition. Do not breathe mist or vapor. Do not get this material in contact with eyes. Do not get this material in contact with skin. Wash thoroughly after handling.

### Conditions for Safe Storage:

Avoid storage at high temperatures and protect from freezing. Store in a well-ventilated place. Store away from incompatibles. Keep away from heat, sparks and open flame. Keep containers closed when not in use.

### SECTION 8 : EXPOSURE CONTROLS/PERSONAL PROTECTION

#### **Exposure Guidelines**

COMPONENTS	CAS NO.	ACGIH TLV	OSHA PEL	NIOSH IDLH
Cyclohexylamine	108-91-8	10 ppm TWA	10 ppm TWA (40mg/m3)	
Morpholine	110-91-8	20 ppm TWA	20 ppm TWA 970 mg/m3)	1400 ppm

#### <u>Legend</u>

ACGIH - American Conference of Governmental Industrial Hygienists OSHA - Occupational Safety and Health Administration NIOSH IDLH: The National Institute for Occupational Safety and Health Immediately Dangerous to Life or Health

#### Appropriate Engineering Controls:

Ensure adequate ventilation, especially in confined areas.

### Individual Protection Measures:

**Eyes:** Chemical safety goggles/Faceshield.

Skin: Chemical resistant gloves and appropriate protective clothing.

**Respiratory:** Approved NIOSH respiratory protection if TLV/PEL is exceeded or if over exposure is likely.

**Work Hygienic Practices:** Facilities storing or using this material should be equipped with emergency eyewash, and a safety shower. Good personal and industrial hygiene and safety practices should always be followed.

### SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Physical State: Colour: Odour :	Liquid. Clear and colourless. Strong Amine Odour.
Odour Threshold:	No information available.
pH:	12.0 - 12.5
Specific Gravity (water = 1) :	0.95 - 1.00
Melting point/Freezing point:	No information available.
Boiling point:	No information available.
Flammability:	No information available.
Upper Explosive Limit:	No information available.
Lower Explosive Limit:	No information available.
Flash Point:	No information available.
Auto-ignition Temperature:	No information available.
Decomposition Temperature:	No information available.
Viscosity:	No information available.
Vapour Pressure (mm Hg) :	No information available.
Vapour Density (air = 1) :	No information available.
Evaporation Rate :	No information available.
Solubility in Water :	Miscible.
Partition Coefficient n-Octanol/Water:	No information available.

# SECTION 10: STABILITY AND REACTIVITY

Reactivity:	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical Stability:	Stable under normal conditions.
Possibility of Hazardous Reactions:	Hazardous polymerization does not occur.
Conditions to Avoid:	Avoid heat, sparks, open flames and other ignition sources, and contact with incompatible materials.
Incompatible Materials:	Strong acids and oxidizers.
Hazardous Decomposition Products:	Oxides of carbon and nitrogen evolved in fire.

## SECTION 11 : TOXICOLOGICAL INFORMATION

Primary Route of Exposure: Skin Corrosion/Irritation:	Eye contact, skin contact, ingestion and inhalation. Causes severe skin burns.
Serious eye damage/irritation:	Causes serious eye damage.
Respiratory or skin sensitization:	This product is not expected to cause respiratory nor skin sensitization.
Germ cell mutagenicity:	No information available.
Carcinogenicity:	The ingredients of this product are not classified as carcinogens by ACGIH or IARC, not regulated as carcinogen by OSHA, and not listed as carcinogen by NTP.
Reproductive toxicity:	Cyclohexylamine is suspected of damaging fertility.
STOT-single exposure:	No information available.
STOT-repeated exposure:	No information available.
Aspiration hazard:	No information available.
