

## **STRIP-IT**®

### HEAVY-DUTY ACID CLEANER

## **DIRECTIONS FOR USE**

STRIP-IT is a unique blend of acids, surfactants and wetting agents which together produce maximum cleaning results with no need for mechanical scrubbing.

STRIP-IT removes stubborn mineral deposits such as calcium, magnesium and iron but also attacks organic buildup such as algae, weeds and hard-packed soils.

The low-odor characteristics of STRIP-IT make for easier handling and application.

This product is a concentrate and must be diluted before use. See table below.

This product is a concentrate and must be diluted before use. See table below.

<b>Cleaning Application</b>	<b>Dilution Ratio</b>
Heavy Duty	40-60 mL/L
Medium-Duty	32-64 mL/L
Light-Duty	12-32 mL/L

Do not allow STRIP-IT to contact growing plants or areas where bulbs are to be planted.

#### **APPLICATION METHODS**

STRIP-IT may be applied by pressure washer, backpack sprayer, foam applicator or brush. High and low pressure sprayers are recommended for easy removal of debris and rinsing.

STRIP-IT produces a high foam when used with a foam applicator. Foam is an effective way to clean heavily soiled areas. Foam can be beneficial due to the residual soaking action on both vertical and horizontal surfaces. This soaking action contributes to thorough cleaning results.

#### **Horticultural Applications**

STRIP-IT may be used in greenhouses, nurseries, atriums, botanical gardens, packing houses and by bouquet manufacturers.

**Areas of Use:** interior and exterior greenhouse structures including glass polyethylene and polycarbonate, storage sheds, pots, plug trays, ground cover, shade cloth, benches, cooling pads, irrigation lines, food-handling equipment and sunblock removal.

#### **Agricultural Applications**

STRIP-IT may be used on vegetable and fruit farms.

STRIP-IT has an excellent record as a pre-cleaner for potato storage areas, interior of storage barns, irrigation systems, field equipment and food transportation equipment.

#### **Livestock Applications**

STRIP-IT has many applications on poultry, pig, cattle and dairy farms.

**Areas of Use:** animal pens, barns, parlors, drinkers, cages, receiving areas, egg rooms, kill floors, storage areas, packing equipment, processing areas and general cleaning.

For detailed instructions on how to use STRIP-IT in your particular application, contact your Pace Representative.

Detailed instructions for the use of STRIP-IT are also available online at PaceSolutions.com.

#### **PRECAUTIONARY STATEMENTS:**

#### **PREVENTION:**

**P234** Keep only in original packaging. **P264** Wash hands and affected area thoroughly after handling. **P270** Do not eat, drink or smoke when using this product. **P262** Do not get in eyes, on skin, or on clothing. **P260** Do not breathe dust/fume/gas/mist/vapours/spray. **P271** Use only outdoors or in a well-ventilated area. **P284** In case of inadequate ventilation, wear respiratory protection. **P203** Obtain, read and follow all safety instructions before use. **P280** Wear protective gloves/ protective clothing/ eye protection/face protection.

#### **RESPONSES:**

P390 Absorb spillage to prevent material-damage. P361 + P364 Take off immediately all contaminated clothing and wash it before reuse. P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P301 + P330 + P331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. P302 + P361 + P354 + P352 + P363 IF ON SKIN: Take off immediately all contaminated clothing. Immediately rinse with water for several minutes. Wash with plenty of water. Wash contaminated clothing before reuse. P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P301 + P304 + P302 + P316 IF SWALLOWED, INHALED OR ON SKIN: Get emergency medical help immediately. P320 Specific treatment is urgent (see FIRST AID on this label). P305 + P354 + P338 + P317 IF IN EYES: Immediately rinse with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical help. P318 IF exposed or concerned, get medical advice.

#### STORAGE:

**P403 + P233** Store in a well-ventilated place. Keep container tightly closed. P405 Store locked up.

#### DISPOSAL:

**P501** Dispose of contents/ container to an approved waste disposal plant.

## HEAVY-DUTY ACID CLEANER

#### FIRST AID:

**Eye contact:** DANGER OF BLINDNESS! Have the person immediately rinse the eye or eyes under a faucet, in a gentle shower, or with a clean container of water for 15-30 minutes. For severe burns, continue flushing until you see a doctor or you arrive in an emergency room.

**Skin contact:** Apply calcium gluconate gel (2.5%) generously and rub it in gently even if there is no pain. Rinse with water then apply again.

**Inhalation:** Immediately remove the affected victim to fresh air. If symptoms persist, obtain medical attention. As soon as possible repeatedly have the casualty deeply breath a glycocortioid inhalation spray in. Mouth to mouth resuscitation is not recommended.

**Ingestion:** Call a physician or poison control centre immediately. When directed by physician, give orally either 1% aqueous calcium gluconate solution, milk or calcium/magnesium containing anti-acid.

DANGER

H290 MAY BE CORROSIVE TO METALS H300 + H310 + H330 FATAL IF SWALLOWED, IN CONTACT WITH SKIN OR INHALED H314 CAUSES SEVERE SKIN BURNS AND EYE DAMAGE H350 MAY CAUSE CANCER
